The Mid Project Program Narrative Report form is designed as a method for you to update us on the progress of your project midway through the project. Your responses to the questions in the report should be simple and concise. We want to know how your project is progressing and what you are learning. The form for the Final Program Narrative Report is a more thorough account of the entire period of the project. These reports should be filled out by the Project Coordinator of the Grant and must be signed by the Library Director.

The Financial Report form is designed to provide accounting of what funding has been spent and/or encumbered. The Expenditure Detail Report is for reporting the LSTA, In-kind, and Local Match funds by category for the full project period. The report will be submitted with the final financial report at the end of the project. These reports may be filled out by different people depending on the organization. ## **Grant Reporting**

Financial and Narrative report instructions can be found on the website at <http://www.library.ca.gov/grants/library-services-technology-act> under the “Manage Your LSTA Grant” heading.

The federal government requires reporting by the California State Library before future LSTA funds are made available, therefore our reports depend on yours being timely. Reports that are not on time or require continuous late notices will have an effect on future grants. Jurisdictions with a history of delayed or incomplete reporting, or inadequate management of previous projects, may be denied future awards until an improvement in administrative practice can be demonstrated.

## **Grant Award Budget Modifications**

During the grant period you may find that you need to modify your budget. All budget modifications must be discussed in advance with the assigned Grant Monitor. Budget modifications 15% or more of the total budget (not to exceed \$10,000), require a Grant Award Budget Modification Form to be submitted according to the instructions. Modifications should be reported on the next financial report. Any modifications in the approved budget must be documented and documentation retained in project files.

## **Grant Documents and Record Keeping**

Consolidated grant award documents will be addressed to the head of the agency responsible for the project. Recipients that have a fiscal agent are responsible for seeing that the documents and funds are properly deposited with the fiscal agent.

## **Accounting**

Separate accounting must be maintained in accordance with accepted standard accounting practices for each federal LSTA project to ensure responsible project management and the ability to submit timely and accurate financial reports. If applicable, grant recipients receiving revenues such as workshop fees must maintain separate income accounts.

## **Audit**

All recipients must be in compliance with Public Law 98-502, “The Single Audit Act of 1984.”

When audits are performed in accordance with the instructions contained in the Act for funds provided under LSTA, a copy must be forwarded to the State Library.

### **Data and Publications Created with Grant Funds**

Please be aware that, unless exempted by the State Librarian, all data, both raw and analyzed, of consultants employed under terms of the award becomes property of the California State Library and may not be used or published without the express written permission of the State Librarian or until the data is published or otherwise made public by the California State Library.

### **Publicity**

Grant recipients must ensure that the Library Services and Technology Act receive full credit as the funding program and that the Institute of Museum and Library Services (IMLS) likewise, is acknowledged as the federal source of funds.

Publications and information releases about the project must credit the Library Services and Technology Act (LSTA). An appropriate statement for a publication or project press release is:

*"This [publication/project] was supported in whole or in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian."*

As appropriate, this disclaimer should be added:

*"The opinions expressed herein do not necessarily reflect the position or policy of the U.S. Institute of Museum and Library Services or the California State Library, and no official endorsement by the U.S. Institute of Museum and Library Services or the California State Library should be inferred."*

This credit line on products of a project, such as materials and publicity, is important to foster support from the public and by state and federal funding sources.

For more examples from Institute of Museum and Library Services (IMLS) provided for recipients of national level grants, please see their <http://www.ims.gov/assets/1/AssetManager/GCK.pdf>.

### **Equipment Inventories**

Record of equipment, each unit costing \$5,000 or more purchased with LSTA funds must be maintained in an inventory file. Equipment inventory files must be maintained at the project level and duplicate copies sent to the California State Library. In general, equipment purchased with federal funds must be used for the project purposes for five years, or the life of the equipment, whichever comes first, unless otherwise stipulated. Disposition of equipment is subject to review by the California State Library.

### **Retention of Records**

Financial records for LSTA projects must be retained by the grantee for a period of three (3) years from the date the final expenditure report has been submitted.

## **CONTACT INFORMATION**

### **Grant Monitor**

A Grant Monitor has been assigned to your project to assist in its implementation and monitor its progress. Be sure to establish a good working relationship with your Grant Monitor at the beginning of the project and call on this person for advice and assistance as needed. The Grant Monitor must be informed of any planned changes (need for more time, change in activities, etc...), budget problems and the like.

## **LSTA Budget Matters and Project Reporting**

A Fiscal Analyst is available to provide assistance for questions related to the budget or project reporting. This person is best to contact if you have questions like:

- How to fill out financial reports & what forms do I need?
- Has the State Library received our reports?
- When will we receive our payment?
- What if we don't spend all of the funds? How do we send the funds back?

If due to extenuating circumstances, you will not be able to get your reports in on time, it is important that you contact the Fiscal Analyst.
