SHASTA COUNTY HISTORY
This Page

Intentionally

Left Blank
Home to Shasta Dam and part of Lassen Volcanic National Park, Shasta County boasts many treasures of both the historic and natural kind. Big names in early California history, such as Pierson Reading, either settled here or stayed briefly to mine the northern goldfields in the area. As an old mining region, this county of course has its fair share of ghost towns, including the old county seat, Shasta, which was also home to one of the oldest Masonic societies in California. As might be expected in a region that has so many historic sites, it is also home to a good number of preservation-minded organizations. If you are looking for exciting local history resources in the California History Section's rich collections, then check out what we have for this county.
