To ensure comparable data, 40 hours per week has been set as the measure of full-time employment (FTE). For example, 60 hours per week of part-time work by employees in a staff category divided by the 40-hour measure equals 1.50 FTEs.

252 **ALA Librarians.** FTE Librarians with master's degrees from programs of library and information studies accredited by the American Library Association.

***NOTE:** Report only those positions that require a master's degree from an American Library Association accredited library and information studies program. 609 **Electronic Books.** E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of electronic units, including duplicates, at the administrative entity level; do not duplicate unit count for each branch. E-books packaged together as a unit (e.g., multiple titles on a single ebook reader) and checked out as a unit are counted as one unit.

Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

NOTE: For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units". For smaller libraries, if volume data are not available, the number of titles may be counted.

Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted

as 100 “units”.

Items packaged together as a unit (e.g. two DVDs for one movie) and checked out as a unit are counted as one physical unit).

613 **Video – downloadable units.** These are downloadable electronic files on which

moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device. Video – Downloadable Units may be loaned to users on portable devices or by transmitting the contents to the user's personal computer for a limited time. Electronic Collections. (formerly Licensed Databases)

Report the number of electronic collections. An electronic collection is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts, photographs, music, video, etc.) with a common user interface and software for the retrieval and use of the data. An electronic collection may be organized, curated and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the web.

Electronic Collections do not have a circulation period, and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library's catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library. **Note:** The data or records are usually collected with a particular intent and relate to a defined topic.

NOTE: In California almost all databases are locally funded.

Number of electronic collections acquired through curation, payment or formal

agreement, by source of access:

614a. _____ Local/other cooperative agreements (or consortia) within state or region

614b. _____ State government or State library funded (**CSL only**)

614c. Total: _____

- 615 **Current Print Serial Subscriptions.** Report the number of current print serial subscriptions, including duplicates, for all outlets. Examples of serials are periodicals (magazines), newspapers, annuals, some government documents, some reference tools, and numbered monographic series.
- 616 **Catalog Records.** The number of bibliographic (title) records in your catalog (OPAC) as of June 30 th. If your records are part of a union catalog please request a count of title records to which your library has attached holdings from the union catalog system administrator.
- 617 **Children's Audio Materials.** Number of cataloged and uncataloged audio-recorded materials held in Children's Collection(s). Include all formats, cassettes, CD's, phonorecords, talking books, and other sound recordings.

- 619 **Equipment.** Number of cataloged and uncataloged items in collection that circulate. Include all non-print, non-digital items, such as computers, tablets, "Library of Things", tools, toys, etc.

LIBRARY SERVICE, ANNUAL

Report **annual totals** in this section.

- 801 **Library Visits.** This is the total number of persons entering the library for whatever purpose during the year.
- NOTE:** If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).*
- 802 **Reference Questions.** Reference Transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet particular information needs.
- A reference transaction includes information and referral service as well as unscheduled individual instruction and assistance in using information sources (including web sites and computer-assisted instruction). Count Readers Advisory questions as reference transactions.
- Information sources include (a) printed and non-printed material including the internet; (b) databases (including computer-assisted instruction); (c) the library's

own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library.

When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Duration should not be an element in determining whether a transaction is a reference transaction.

NOTE: *It is essential that libraries do not include directional transactions in the report of reference transactions except as noted above. Directional transactions include giving instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, "Where is the reference librarian? Where is Susan Smith? Where is the rest room? Where are the 600s? Can you help me make a photocopy?"*

NOTE: *If an annual count of reference transactions is unavailable, count reference transactions during a typical week or weeks, and multiply the count to represent an annual estimate. [If the sample is done four times a year, multiply totals by 13; if done twice a year, multiply by 26; if done only annually, multiply by 52.] A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours.*

802a

Technology Assistance. Number of individual transactions for technical assistance in use of technology related resources such as hardware, software or online resources **included in the previous question.** Count is for how to use the information resource, or how to extract information from the information resource, e.g. how to set up an email account, how to save a file to a thumb drive, how to search a database, etc. These transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use technology to obtain information. A Technology Assistance transaction includes instruction and assistance in using information sources as defined in Reference Questions and including websites and computer-assisted instruction.

NOTE: *Examples of directional technology transactions that should not be counted include, "Where are your public computers? How do I apply for a library card (if application is online)? Can you help me use the self-checkout machine?"*

803 - 807

Circulation. Circulation of all materials of all types including renewals.

803

Physical Item Circulation. The total annual circulation of **ALL** physical library materials of all types, including renewals.

NOTE: *Count all physical materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.*

804

Circulation of Children's Materials. Total circulation (including renewals) of cataloged and uncataloged materials (in all formats) marked as Children's whether they are borrowed by a child, young adult, or adult over the course of the

report year.

- 805 **Circulation of Non-English Materials.** Count of total non-English language materials in all formats (adult, YA, and Children's) circulated annually.
- 807 **Circulation of Electronic Materials.** Electronic Materials are materials that are distributed digitally and can be accessed via a computer, the Internet, or a portable device such as an e-book reader. Types of electronic materials include e-books and downloadable electronic video and audio files. Electronic Materials packaged together as a unit and checked out as a unit are counted as one unit. Include circulation only for items counted under Electronic Books (E-Books), Audio-Downloadable Units and Video-Downloadable Units in the LIBRARY COLLECTION data elements 609-613. Do not include items **not** specified under those definitions.
- 808 **Successful Retrieval of Electronic Information.** The number of full-content units or descriptive records examined, downloaded, or otherwise supplied to user, from online library resources that require user authentication but do not have a circulation period. Examining documents is defined as having the full text of a digital document or electronic resource downloaded or fully displayed. Some electronic services do not require downloading as simply viewing documents is normally sufficient for user needs.
- Include use both inside and outside the library. Do not include use of the OPAC or website. [based on NISO Standard Z39.7 (2013) #7.7, p. 43]
- 810 **Total Circulation.** Total annual circulation (including renewals), library materials of all types. Circulation means check out of materials to registered borrowers for use outside the library. Note: Count all materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.
- 812 - 813 **Inter-Library Loans.** These are library materials, or copies of the materials, provided to or received from one autonomous library to another upon request. The libraries involved in interlibrary loans are not under the same library administration. "Library Administration" means Administrative Entity (not anything broader). Do not include items loaned between outlets within the same library administrative entity. These data are reported as annual figures.
- 812 **Loans to Others.** Annual count of items provided ILL to other libraries.
- 813 **Loans Received.** Annual count of items received ILL from other libraries.
- 814 - 823 **Programs.** A program is any planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings; lectures; story hours; literacy, English as a second language, and citizenship classes; and book discussions. Count all programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs. Report the number of programs and attendance, by

age group.

NOTE: Exclude library activities delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities.

NOTE: If a program serves multiple age groups, select the one age group below that best matches the program's target or majority audience.

NOTE: Pre-school is defined as 0 through 5 years, and school-age as 6 through 11 years. Young Adult age is defined as 12 through 18 years and includes 18 year olds. The Young Adult Library Services Association (YALSA) defines young adults as age 12 through 18.

Pre-school children's programs may cover use of the library, library services, or library tours. Pre-school children's programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include story hours and summer reading events.

Count all pre-school children's programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include pre-school children's programs sponsored by other groups that use library facilities. If pre-school children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for pre-school children delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

Annual Pre-School Children's Program Attendance is the actual count over the course of a year of the attendance, of adults, young adults and children, at programs which have all or a portion of their target market intended for children ages 0 to 5 years.

*Please count all patrons that attend pre-school programs regardless of age.

School-Age #816 – 817

A school-age children's program is any planned event for which the primary audience is school-age children ages 6 to 11 years and which introduces the group of school-age children attending to any of the broad range of library services or activities for children or which directly provides information to participants. School-age children's programs may cover use of the library, library services, or library tours. School-age children's programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include story hours and summer reading events.

Count all school-age children's programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include school-age children's

programs sponsored by other groups that use library facilities. If school-age children's programs are offered as a series, count each program in the series. For example, a book club offered every two weeks, 24 weeks a year, should be counted as 24 programs. Exclude library activities for school-age children delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

Annual School-Age Children's Program Attendance is the actual count over the course of a year of the attendance, of adults, young adults and children, at programs which have all or a portion of their target market intended for children ages 6 to 11 years.

Adult programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include book clubs, instruction and reading events.

Count all adult programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include adult programs sponsored by other groups that use library facilities. If adult programs are offered as a series, count each program in the series. For example, a book club offered every two weeks,

24 weeks a year, should be counted as 24 programs. Exclude library activities for adults delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, or services to homebound.

Count all programs held off-site that are sponsored or co-sponsored by the library. Do not include programs sponsored by other groups that use library facilities/resources. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.

Annual Off-Site Program Attendance is the actual count over the course of a year of the attendance, of adults, young adults and children, at programs which have been sponsored or co-sponsored by the library that takes place outside a library facility (including bookmobiles) or off library grounds regardless of primary target audience.

NOTE: *These programs should also be included in responses for above age-related programming/attendance.*

SALARY SURVEY

Complete entries **for this reporting year**. Report beginning step and final step of monthly salary range in whole dollars; omit cents. If payment is made in other than monthly increments, compute monthly equivalent. Only nine positions are surveyed; do not add positions of your library not included on the survey. If your library has more than one class of position as described, report the highest salary range. The first 6 positions (items 901-910) are considered professional Librarian classes. Lib. Tech. Asst. is a paraprofessional class, sometimes called Library Technician; it requires specialized training or job skills/experience but does not require an MLS. DO NOT report zero dollars for any position, leave blank if position is not in use or no information is available.

901 - 902	Library Director. Chief Administrator of library.
903 - 904	Assistant Director. Deputy line position with library-wide responsibilities; not administrative assistant.
905 - 906	Chief of Division. Professional line position supervising other librarians.
907 - 908	Branch Librarian. Professional line position normally supervising other staff in branch library location.
909 - 910	Entry Level Librarian. Beginning professional with library training but normally

without previous professional library work experience.

ELECTRONIC SERVICES

- 856 **California Teleconnect Fund.** If your library took advantage of the California Teleconnect Fund subsidies during this report year, Y = Yes; N = No.
- 857 **Federal E-Rate.** If your library took advantage of the federal E-Rate subsidies during this report year, Y = Yes; N = No.
- 858 **CIPA Compliant.** If your library is compliant with CIPA (Children's Internet Protection Act) compliant, Y = Yes; N = No.
- NOTE:** For CIPA compliance your library must have an Internet safety policy that includes technology protection measures and provide a means to block images that constitute obscenity, child pornography and prevent minors from obtaining access to material that is harmful to them. **All library computers**, including staff computers, must have a technology protection measure installed and running that blocks obscene/child pornography images. An authorized person may disable the blocking or filtering measure during use by an adult to enable access for bona fide research or other lawful purposes.*
- 859 **Number of Uses (Sessions) of Public Internet Computers Per Year.** Report the total number of uses (sessions) of the library's Internet computers in the library during the last year. If the computer is used for multiple purposes (Internet access, word-processing, OPAC, etc.) and Internet uses (sessions) cannot be isolated, report all usage. A typical week or other reliable estimate may be used to determine the annual number. Sign-up forms or Web-log tracking software also may provide a reliable count of uses (sessions).
- Note:** This count includes only the library's Internet computers. Do not include WiFi access using non-library computers. The number of uses (sessions) may be counted manually, using registration logs. Count each use (session) for public internet computers, regardless of the amount of time spent on the computer. A use (session) on the library's public internet computer(s) three times a year would count as three uses (sessions). Software such as "Historian" can also be used to track the number of uses (sessions) at each public internet computer. If the data element is collected as a weekly figure, multiply that figure by 52 to annualize it.*

860 **Virtual visits to the library (website or catalog).** Visits represent the number of individual sessions initiated by all visitors from outside the library to your site. A visit/session ends when someone closes their browser or stops loading web pages on the website for a period of time (typically when more than 30 minutes elapses between page views, but this is arbitrary).

A visit is usually determined by each user's unique IP address, and/or their login account name when they are accessing secure parts of the website. The details for website visits/sessions are contained within the access log file for the web server(s) and may be accessible using log file analysis or web analytics reporting tools.

Virtual visits include a user's request of the library website or catalog from outside the library. A single visit to a website may involve loading of numerous web pages or gratuitous elements (images, style sheets, etc.)

861 **Wireless Sessions per year.** Report the number of wireless sessions provided by the library wireless service annually.

862 **RFID.** Does your library use a Radio Frequency Identification (RFID) system for circulation? Y = Yes; N = No.

Complete one set of forms/input screens for each fixed-facility public service outlet.

New Library Outlets: Click on "ADD GROUP" in the survey to create a new record for a new library service outlet.

Closed Outlets: If an outlet for which we have provided you a California Library Outlets Survey entry was closed during this report year write a "note to the state" for Section 1 of the Web-based input form. Please also include the date the outlet closed if that is easily available. Enter any data for the time period the outlet was open.

Updates to Existing Outlets: On the California Library Outlets Survey, you do not need to provide any response where there is no change in data from that which is indicated as currently in our file. Date built, date remodeled, # of square feet are all examples of data which probably has not changed.

5 **Name.** Name of outlet.

6 - 9 **Street Address. (CSL only)** Street address of outlet as of June 30th , including city, ZIP and ZIP+4.

NOTE: *Please notify us of major changes only to the address for an obvious error or when a completely new address is needed.*

10 - 14 **Mailing Address. (CSL only).** Mailing address of outlet, including city, county, ZIP and ZIP+4 for mailing. This is particularly important if it is different from street address. The street address is repeated if it is the same as the mailing address.

BR = Branch. A branch is an extension library open some part of each of at least five days a week, has at least 1,400 sq. ft. of floor space, a general book collection of at least 7,000 volumes, and is staffed with the equivalent of at least one paid librarian and one paid clerical employee during the hours open for public service.

ST = Station. A station is a library structure smaller than a branch, providing a lower level of service. All stations have all of the following, however: 1) separate quarters; 2) a permanent basic collection; 3) at least one established, paid position; and 4) a regular schedule for opening to the public.

NOTE: *Separate quarters does not necessarily mean separate building, only a separate facility,*

which could be in a building that also houses other agencies or operations. The facility within the larger building is under the library's control for the provision of library services. Not included would be areas within a facility housing a deposit collection or some such.

The FTE of one full-time position is "1." To compute the FTE of a part-time position, divide number of hours worked per week by hours of normal workweek. The FTE of one 20-hour position is "0.5." Add total full-time positions and FTE of part-time positions for total Staff FTE.
- 22 **Hours Open, Weekly.** Number of hours the outlet is open for public service in a typical week.
- 23 **Hours annual.** Total number of hours outlet is open for public service per year.
