

As part of our commitment to help early learning providers find resources that reflect the diverse population you serve, the Sacramento Public Library is currently developing storytime sets for checkout that feature diverse characters. These Read Together Kits will be available for check out in January 2018.

We would like to develop these storytime sets in themes that will be useful to support your learning environments.

Please take 5 minutes to provide us feedback on some suggested storytime kit themes and add any other themes that we have not considered. This survey will stay open until October 27, 2017.

Thank you for all you do for young children in our community. If you have any questions about this project or library services, please feel free to contact Donna Zick at dzick@saclibrary.org.
